THE committee to whom was referred, that part of the governor's message which relates to the military preparations of the state, and to the provisions and regulations which might appear best adapted to the eventful crisis of our public affairs, *Report,* That they have made enquiry of his excellency the governor, of the quantity and state of the arms, ammunition and military stores in the public arsenals and magazines; and they beg leave to submit to the house, the communications made on that subject by the governor, to the committee. The committee beg leave to remark thereon, that the quantities of light artillery, musquets, pistols, sabres, cannon ball, lead, and other military stores in the arsenals and magazines, are very deficient, and far from being adequate to the supply of the militia, in case there should be real occasion for their services; and that although considerable quantities of powder have been purchased, the supply of that article is not yet deemed sufficient.

The committee perceives by the report of the commissioners appointed to make purchase of arms, conformably to the "Act to make appropriations for the year 1807," that they have not been able to succeed in making such purchases, owing to various causes assigned by them.

The committee beg leave to recommend, that new instructions be given to said commissioners to continue to use their utmost exertions to carry into effect the intentions of the legislature respecting the purchase of arms. Your committee having been informed that some supplies of smooth bore musquets, pistols and sabres may be obtained in this state, they recommend that the commissioners do endeavor to procure as many as they can from any part of this state; provided the same can be obtained of a uniform calibre, of good quality, compleatly finished, at a reasonable price and in a short time; without however relaxing in their endeavors to procure the arms wanted in other parts of the United States.

The committee approve of the caution of the commissioners in not purchasing musquets which could not be warranted, and recommend that the same caution be persevered in, as it would be a waste of the public money, and a deception on the public hopes, to arm the militia with defective musquets.

The committee beg leave to recommend that the commissioners should be authorized to lay out part of the said appropriation in the purchase of light field artillery, compleatly fitted for service, powder, cannon ball, lead, and other military stores, with part of the money placed under their direction, not exceeding a fifth part thereof.

The committee do not think it foreign to the object of their appointment, to report that they have been informed that the defences preparing under the orders of the general government, for the city and harbour of Charleston, are advancing rapidly to completion; that a respectable battery is erected at Fort Johnson, and Fort Mechanic is re-constructed, and that a large and respectable fort is erecting on Sullivans island, so that there is good ground to hope that important commercial city will shortly be placed, by the cares of the government, in a situation above insult or apprehension.

Resolved, That this House do agree to the above report. *Ordered*, That the report and resolution be sent to senate for their concurrence.

By order of the House,

THE committee on claims to whom was referred, the petition of William Lewis, *Report,* That from the documents submitted to, and other evidences given before the committee, it appears that the petitioner, William Lewis, became the purchaser of 640 acres of land on the Wateree creek, originally granted to Meridith Taylor, by him conveyed to James Rainey, mortgaged by the said James to secure a joint debt of himself and John Winn, to the state, for a loan of paper medium, and sold under the acts of the legislature, by the sheriff of Fairfield district; that three persons, namely, John Allen, Daniel McCullough and Sterling Tidwell, being in possession of different parts of the said land, the petitioner was compelled to institute, and did institute three separate actions against them respectively, to establish his title to, and recover the possession of the said lands; that in the suits against Allen and McCullough, his actions were defeated by virtue of titles in the defendants to the parts they occupied, under grants prior to that of Meridith Taylor; and in the action against Tidwell he was nonsuited, because it appeared from the testimony of the subscribing witness to the conveyance to James Rainey, that the same had been delivered in blank, and afterwards filled with

B

the name of the said James Rainey. The committee further report, that the consideration from the petitioner to the state, for his purchase, was three hundred dollars and 90 cents; seventy-five dollars, 25 cents of which was paid in cash, and for 225 dollars, 75 cents, he gave his bond; that the costs of suit upon the three actions aforesaid; taxed upon the petitioner, amount in the whole to 202 dollars, 54 cents. The committee therefore recommend, that as the comptroller-general was duly vouched on the part of the state, to defend their title, and it appears the petitioner failed in his suits from a defect therein; that the cash paid by the petitioner, and his costs of suit, be allowed him, and his bond cancelled, and for that purpose submit to the house the following resolution:

Resolved, That the sum of two hundred and seventy-seven dollars, seventy-nine cents, be appropriated to satisfy William Lewis for the cash paid by him for the purchase of 640 acres of land on Wateree creek, and his costs of suit in three actions, instituted for the purpose of establishing his title under the state thereto, and that the comptroller-general be authorized to deliver to the said William Lewis, his bond of 225 dollars, 75 cents, executed for the balance of his purchase,

Resolved, That this House do agree to the above report. *Ordered*, That the report and resolution be sent to senate for their concurrence.
